

Definitely Not Secure (DNS)

About Me

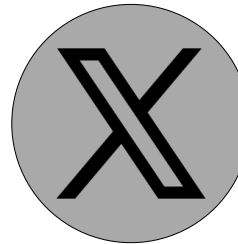

I work for a big well-known organization...

As Vice President (VP) of Computer Security and Incident Response (IR). However, I have many years of hands-on technical experience, including Digital Forensics & Incident Response (DFIR).

<https://www.linkedin.com/in/mattscheurer>

<https://x.com/c3rkah>

Where I volunteer...

I am an Official

Advocate

<https://www.hackingisnotacrime.org>

Advisory Board: Information
Technology and Cybersecurity

<https://www.mywccc.org>

Women's Security Alliance
(WomSA) Technical Mentor

<https://www.womsa.org>

Disclaimer!

Yes, I have a day job.
However...

Opinions expressed are based solely on my own independent security research and do not express or reflect the views or opinions of my employer.

Agenda

- **DNS** Essentials (Primer)
- **DNS** Tools (w/ Demos)
- **DNS** Attacks (w/ Demos)

Slide Deck

System

NOTE: The 'S' does not stand for "Security"!

Purpose

The “**Domain Name System**” (DNS) is a vanity protocol making internet and network addressing human-friendly.

DNS gossips a lot!

*"And then CNAME
said to me, You
really need to go
and talk to..."*

DNS in the OSI Model

Layer 7)	Application	DNS
Layer 6)	Presentation	
Layer 5)	Session	Port 53
Layer 4)	Transport	UDP, TCP
Layer 3)	Network	IP
Layer 2)	Data Link	
Layer 1)	Physical	

Networking

Mostly UDP Port 53

TCP Port 53

- > 512/4096 UDP byte limits
- DNSSEC
- Zone Transfers
 - Heavily restricted today

Other TCP Ports

- DNS over TLS (DoT)
 - TCP Port 853
- DNS over HTTPS (DoH)
 - TCP Port 443

Foundational DNS Records

More about “TXT”

RFC 1035

- 2.3.4 Size limits
 - 255 Characters

“Time to Live” (TTL) Values

Number of seconds DNS resolvers should cache records before refreshing

DNS Tools

nslookup

- Windows
- *nix
- Mainframe
- Others

dig

- *nix
- Others

DNS tools demos

Live Demo

Early DNS Security Woes

- **RFC 1535**
 - A Security Problem and Proposed Correction With Widely Deployed DNS Software
 - <https://www.rfc-editor.org/info/rfc1535>
 - October, 1993

DNS Weaknesses

UDP

The diagram features two large, stylized orange arrows pointing towards each other from the left and right sides. In the center, the text 'UDP', 'Plain Text Protocol', '&', and 'Leaky Zone Records' are stacked vertically.

Plain Text Protocol

&

Leaky Zone Records

DNS packet capture

Live Demo

Leaky DNS Zones

Live Demo

DNS Hijacking

Abuse along the DNS Default Search Order trail

DNSSEC to the rescue?

The word "DNSSEC" is rendered in a large, bold, green 3D font. The letters have a thick black outline and a slight shadow, giving them a three-dimensional appearance. The font is a sans-serif style.

DNSSEC provides a cryptographic “Chain of Trust” to prevent DNS spoofing and DNS Cache Poisoning

DNSSEC shortcomings

DNSSEC

- Lack of adoption
- Configuration woes
- 'hosts' file bypass
- AitM / MitM
- Typosquatting

Where the “hosts” file lives

Injecting the “hosts” file

Live Demo

Rogue DHCP

Dynamic Host Configuration Protocol:

DHCP Network Settings

IP Address

Subnet Mask

Default Gateway

DNS Servers

Other (WINS for NetBIOS, etc.)

NOTES: NetBIOS = Network Basic Input/Output System, WINS = Windows Internet Name Service

DNS Tunneling

C2

Exfil

C2 & Data Exfiltration

Live Demo

Other DNS Spoofing

**ARP
Poisoning**

**DNS
Server
Record
Changes**

**Domain
Registration
Takeover**

DNS Amplification Attacks

Too many large responses: Denial of Service (DoS)

DNS Reflection

How Reflection Attacks Work

Questions

Who?
What?
When?
Where?
Why?
How?

Definitely Not Secure (DNS)

Three instances of the text "DNS" are shown, each crossed out by a yellow lightning bolt. Below this, the logo for the (US)NUA (US Networking User Association) is displayed, featuring the text "(US)NUA" in large letters and "US Networking User Association" in smaller text below it, with a stylized American flag graphic in the background.

A photograph of Matt Scheurer, a man with long hair and sunglasses, wearing a black leather jacket and a skull t-shirt, speaking into a microphone. He is wearing a black cap and a lanyard with a badge.
